*TECHNICAL CHARACTERISTICS*

**ELEVADOR HIDRÁULICO CON PLATAFORMA**  
*HYDRAULIC LIFT WITH PLATFORM*

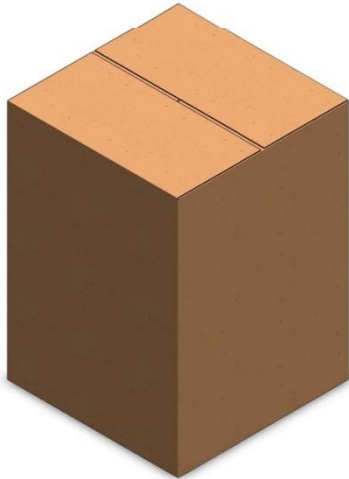

**Código / Code: 63157-63158-63159**

- Para piscinas terapéuticas y como alternativa a la escalera.
- Facilitar a aquellas personas ,discapacitadas o con movilidad reducida, que necesitan efectuar su entrada y salida del vaso de la piscina.
- Se compone de una estructura en acero inoxidable AISI-316 en la que se adapta el mecanismo hidráulico donde se soporta la plataforma.
- Para que el mecanismo hidráulico funcione, es necesario una toma de agua de la red con una presión mínima de 3,5 kg/cm2.

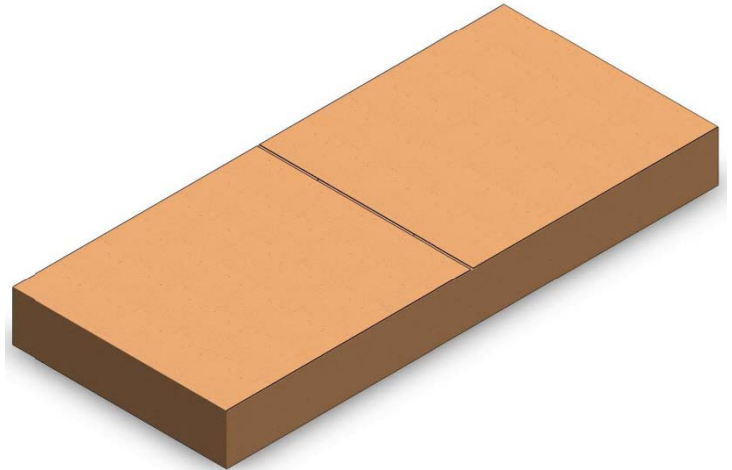

- For therapeutic pools, developed for mobility impaired persons who need to be seated when entering and exiting the pool.
- Provide those persons with disabilities or reduced mobility, which must perform in and out of the pool.
- Frame made mainly in AISI-316 Stainless Steel with a central hydraulic mechanism and platform
- For correct hydraulic operation a minimum 3.5 kg/cm2 water supply pressure is required.
